Technology is the next growth driver

for small businesses

CAPITAL AND TECHNOLOGY

Capital is getting more expensive, technology is getting much cheaper

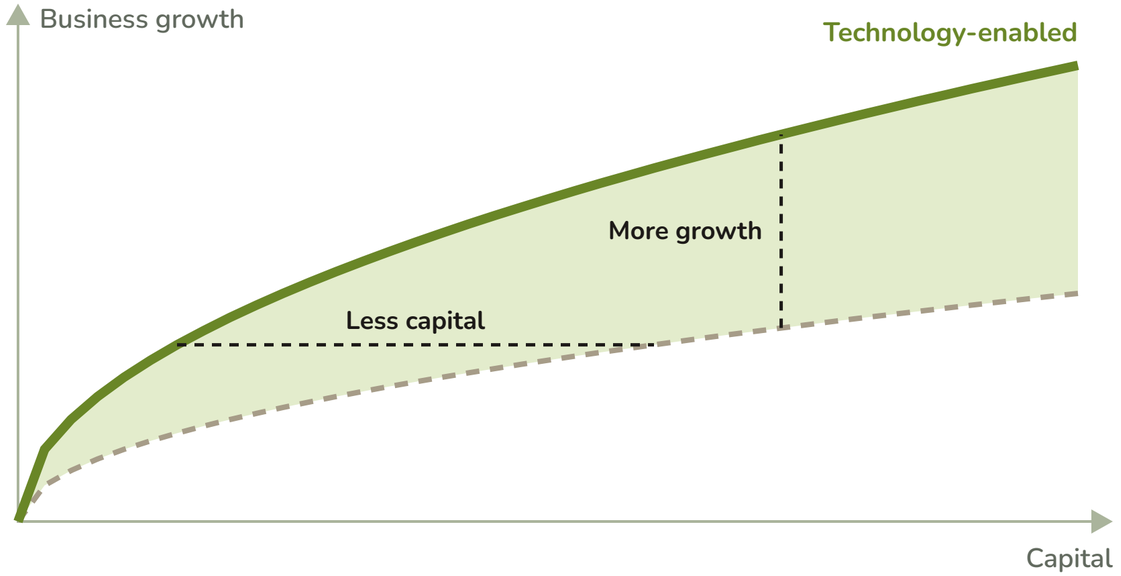

Low software and AI adoption in F&B businesses

~11%

of US food and lodging businesses use AI, compared to 25% national average

GROWTH

Technology drives small business revenue growth without additional capital

Technology drives revenue growth

+3.6%

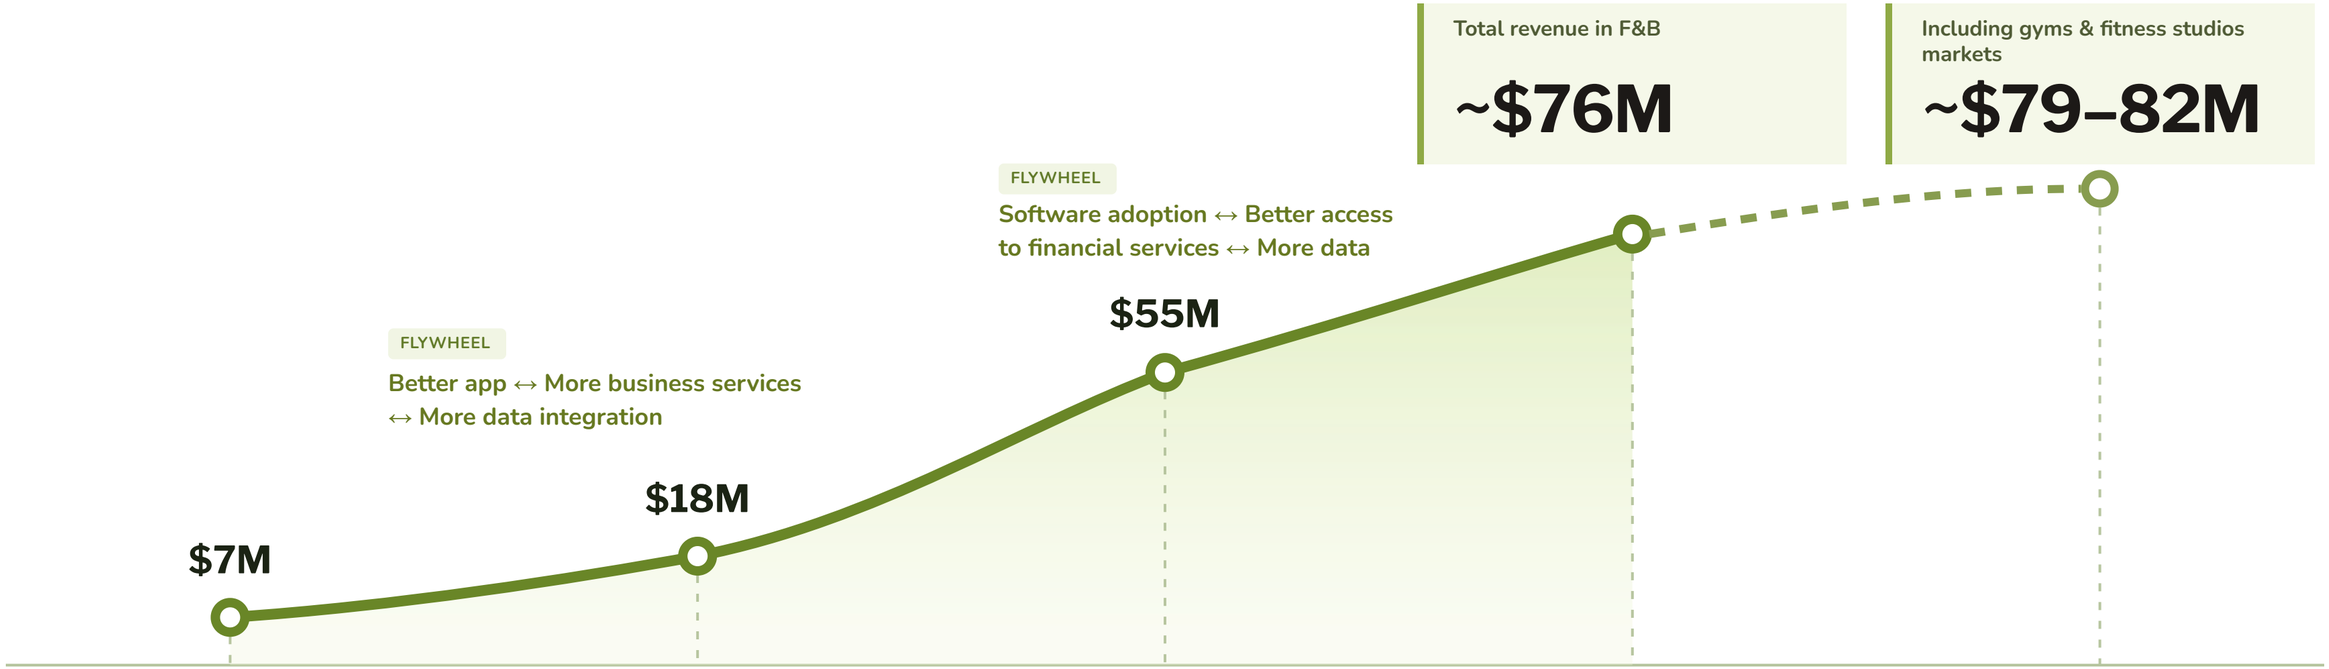

revenue at the same small businesses after adding a sales analytics tool

See Appendix 1: Data Sources.

Best software = Best data = Best AI

for small businesses

ASSUMPTION Annual gross revenue modeled at 1.5% share of the U.S. F&B market

SOFTWARE

+$7M

Distribution

Low-cost, easy-to-use software that can scale from independent F&B businesses to multi-location groups.

+$11M

Business services

Ordering, payments and back-office software keep users in Bagel² and add data integrations that capture more operating data.

DATA MONETIZATION

+$37M

Financial services
